Statistics show that nearly half of all people in developing countries suffer from health related problems caused by unsafe water. In addition, African women and children spend several hours every day collecting water which is often miles away and may or may not be contaminated. This well will provide clean and safe drinking water and will go a long way to ease a heavy burden for hundreds of village people who struggle daily with basic physical needs.

Hands of Hope is a Section 501(c)(3), tax-exempt, not-for-profit organization. All donations directly benefit our projects in Africa.
